WETD – Listener Identified Issues

Overview: In order to identify the most significant issues facing our listeners, WETD conducted three major listener surveys in 2009: Hot Dog Day (Alfred), Main Street Festival (Wellsville), and Homecoming (ASC, Alfred). Based on these results, WETD is committed to providing the best programming in meeting the most significant identified issues of our community.

The following is a Significant Issue Chart combined from the three WETD conducted listener surveys, involving a wide variety of area listeners from across Western New York and our local area. Using these results, WETD staff identified that business finances, followed by community focus were the most significant issues in our listener’s lives.

In reviewing our current programming lists (included), WETD continues to provide programming that meets these needs, as well as considering the other identified needs within our community of license and our surrounding communities. Our next scheduled survey will be this month, Main Street Festival, Wellsville, NY.
