Libraries aren't just repositories for books -- they're often a great place to find gently used volumes for sale. Or you can always visit a "little free library," one of those neighborhood spot dedicated to recycling your own books, and picking up new ones for free. Plus: "When two elephants fight, it's the grass that suffers" -- weighty proverbs from East Africa. Finally, the United States and the UK are separated by more than a common language: the way we talk about numbers is also surprisingly different, depending on which side of the pond you're on. Also: I don't know him from Adam, stargazy pie, my dogs are barking, and cheiloproclitic. Ruminare on that!

5/21/2017	09:00:34"	1471	The months of September, October, November, and December take their names from Latin words meaning "seven," "eight," "nine," and "ten." So why don't their names correspond to where they fall in the year? The answer lies in an earlier version of the Roman calendar.
